

HYPERIA

RESTRICTIONS

These are requirements you must meet to be able to access this ride.

HEIGHT:

Min 1.3m.

NON-AMBULANT SUITABLE:

Following a recent review, we have made some updates to the accessibility criteria for Hyperia. While many guests with disabilities and additional needs will still be able to enjoy the ride, currently it is not suitable for those who are non-ambulant.

STEP-FREE ACCESS:

Enter via the Ride Access Pass queue line.

LIMB DIFFERENCES/PROSTHETICS:

✗ Prosthetics cannot be worn on ride.

CASTS:

Medical Hard Casts, Soft Casts and Moonboots are allowed to ride.

GUIDANCE

Advice for accessing this ride

SENSORY

Guidance recommended:

TOUCH

SIGHT

TASTE

Low engagement with these senses:

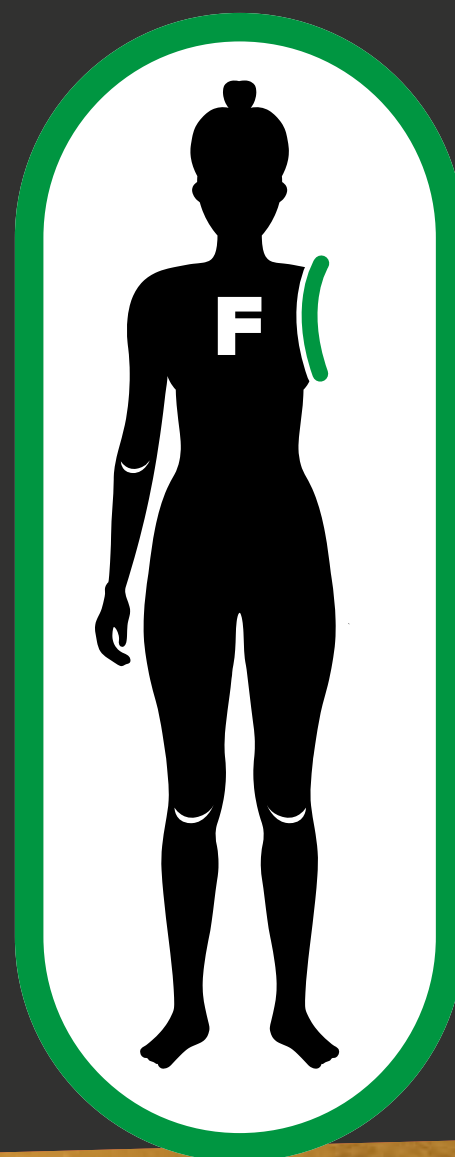

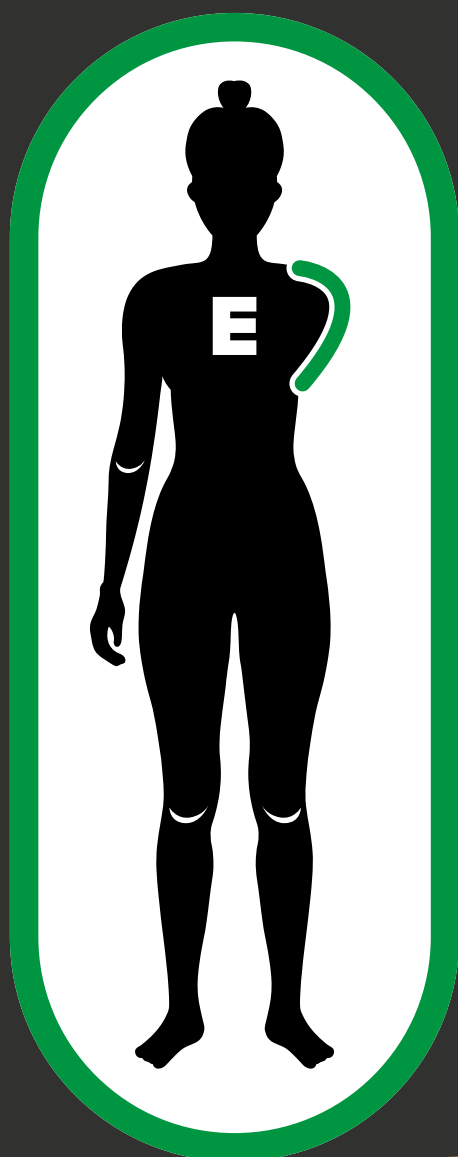

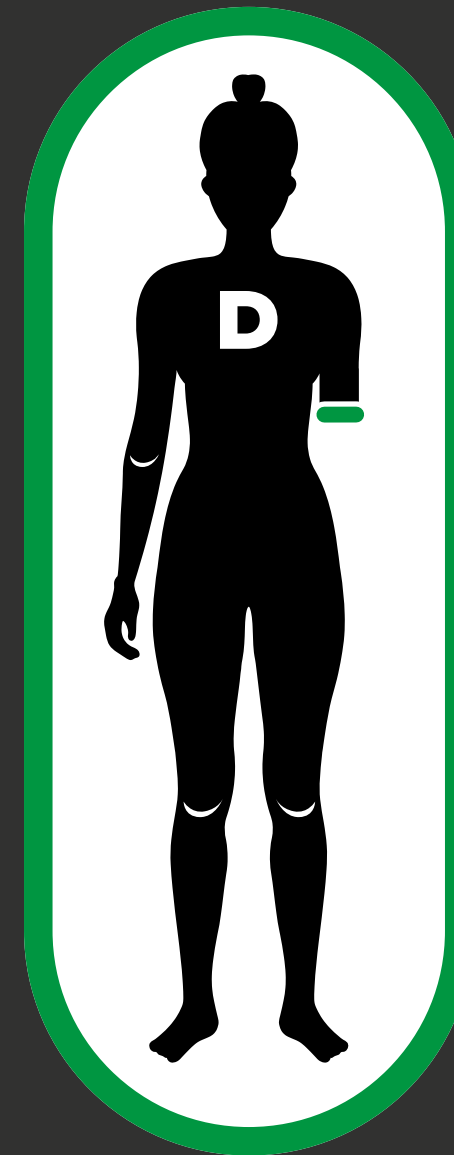

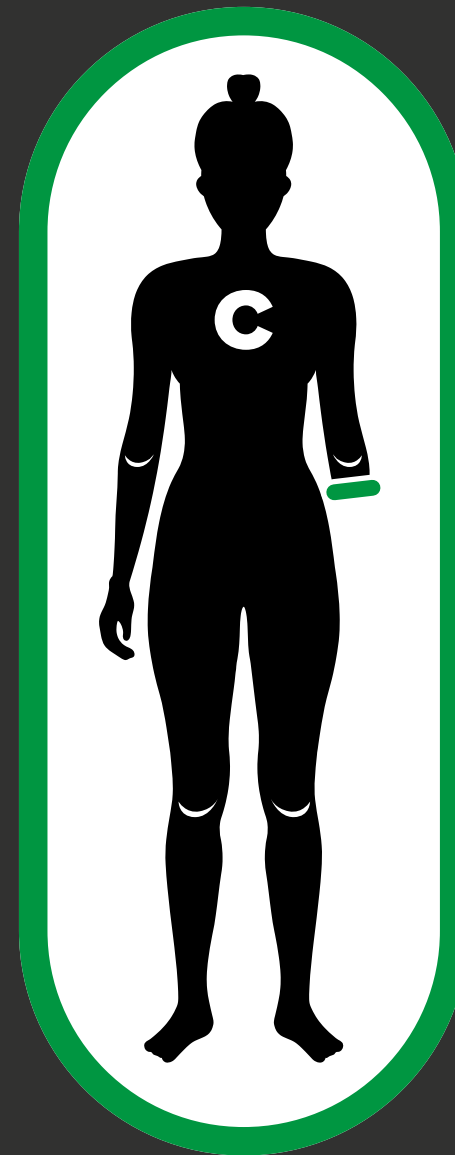

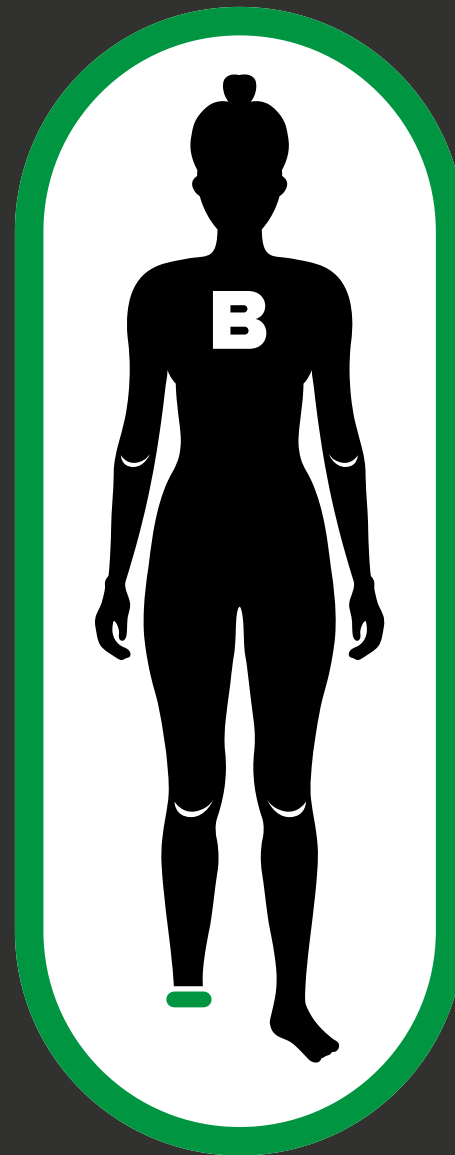

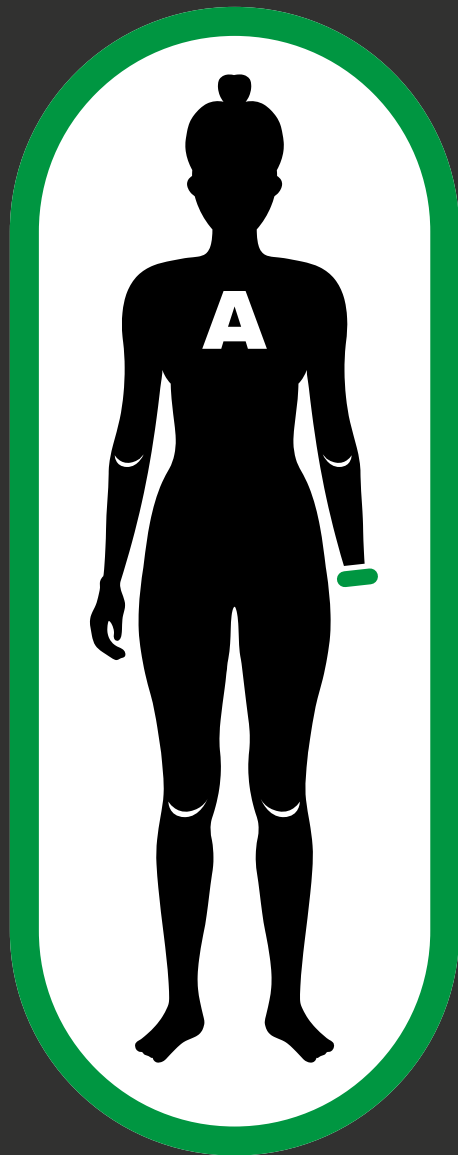

TASTE

SMELL

Riders with the following limb differences are good to ride.

- A** One hand difference.
- B** One foot difference.
- C** One arm difference below elbow.
- D** One arm difference above elbow.
- E** One arm difference with shoulder.
- F** One shoulder difference.

For your safety, riders with other or greater limb differences cannot ride.
